

Nanoliter

Starting at \$5k for a MAJOR, > 10x, increase in Sensitivity For ESI (Infusion or UPLC MS), MALDI, SIMS & LDI, + viscous nL liquid handling.
Place 100% of your samples into your ESI or make excellent MALDI crystals with the SAME device!

Fly nLs to targets for MS, PCR TLC & more. 21st Century sample introduction & handling.

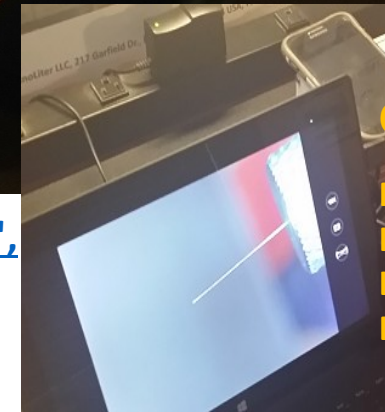

Rapidly fly droplets,
in 5 sec,
or 0.5 sec,
or in 1 sec, into
ESI's or onto surfaces
of even viscous liquids!

MJ Testing
Forensics
Drug testing
Single cell MALDI
Highly Parallel Dispense

See user successes, peer review papers & 100% "ALL IN",
UPLC MS data, a world's first + non-touch dispensing.

See the advantages of DIRECTED DROPLET input/placement!

CELL PHONE MS

Proteomics, Genomics,
Biomarkers,
Lanthanides & Actinides,
Direct MS cell introduction & more.
